Review: August 2024

Audiologist

Location: tbc

Reports to: Lead Audiologist

Working with: Audiology Team

Introduction:

InHealth Audiology is a fast-paced and exciting place to work. Typically seeing between 10 and 15 patients per day, working 4 days from 7, 8am – 6pm, you will be assessing the hearing of patients and where necessary providing fitting, counselling and rehabilitation services to these patients to improve their lives.

What you will do:

You will work as part of a team managed and supported by a Lead Audiologist. An approachable, friendly person, you are polite to patients and colleagues and have good written and oral communication skills. You will:

- Provide excellent care to patients
- Work to BSA/BAA guidelines
- Undertake audiometry, tympanometry, and speech in noise testing
- Advise and select appropriate hearing aids
- Fit hearing aids using real-ear measures
- Provide excellent counselling and rehabilitation advice to patients
- Help patient become self-reliant to deal with minor issues with their hearing aids
- Ensure records are kept accurately and in a timely fashion
- Uphold data protection laws and guidelines
- Demonstrate initiative and problem solving
- Work within company policies, procedures, and guidelines
- Maintain stock levels in your sites

What people see in you:

We want an audiologist who is:

- A team player who is supportive, reliable and trustworthy/who gets stuck in and creates a positive atmosphere
- Educated to degree level or higher in audiology with relevant and current registration with HCPC (preferably) or RCCP

Job description

- Able to work independently with minimal supervision
- Willing to move between sites as part of their rota
- Able to comply with reasonable requests from their manager
- A person who naturally instils confidence in everyone they work with
- Someone who thrives on and is calm in challenging situations, working well under pressure
- A person who makes good decisions
- Someone who is approachable, dedicated and hardworking

You have experience of:

- Customer service
- Use of audiometric clinical equipment
- Clinical work unsupervised
- Working with computer systems (although training for our specific systems will be provided)
- Have excellent communication skills both written and orally
- Working to appointment times
- Working in an NHS environment
